The only remaining
evidence of the trauma

Perfect partner for your trauma and non-unions

genex is a catalyst for bone healing. It complements the body's natural healing processes and encourages normal bone structure to be restored at a steady rate. Over 12 months, it is completely absorbed and leaves no foreign artifacts to impair structural integrity.^{1,2}

- ✓ cleared for bony voids and defects that are not intrinsic to the stability of the bony structure

genex offers successful long-term outcomes across a range of surgical applications, including tibial plateau fractures and long-bone non-unions²⁻⁴

TIBIAL PLATEAU FRACTURES³

PROXIMAL FEMUR FRACTURES²

DISTAL TIBIA NON-UNIONS⁴

Designed to be completely absorbed and leave no trace

genex is a precisely balanced β -tricalcium phosphate/calcium sulfate hemihydrate compound with distinct design properties.

- ✓ Contains no hydroxyapatite (HA)
- ✓ Fully absorbed within 12 months
- ✓ Enhances osteogenic response
- ✓ Restores strong healthy bone
